

STORY APP — MOBILE MVP UX

Version: Rebuild v1

SCREEN 1 — Tell Us Your Idea

Header

Tell us your idea

Subtext

A sentence or two is perfect.

Inputs

- Large multiline text box
- Microphone button (speech → text)

Buttons

- Continue

System behavior

- Speech is transcribed into the text field and can be edited
- At least one sentence is required
- On Continue, a Story object is created in Draft state

SCREEN 2 — Choose Your Format

Header

That's awesome. What's your ideal format?

Subtext

You can change this later.

Single-select options

- Play
- Film
- Book
- Television
- Comic / Manga
- Short
- Vertical

Buttons

- Continue
- Not sure (auto-selects Film)

SCREEN 3 — Choose Your Genre

Header

What is your genre?

Toggle

[I'll choose] [You choose]

If “I'll choose”

Multi-select list

Comedy

Action

Drama

Romance

Crime

Fantasy

Science Fiction

Horror

Historical

Mystery

Thriller

If “You choose”

Genres collapse

Optional chips appear:

“Funny” “Dark” “Epic” “Realistic” “Weird”

Special button

Surprise me

Buttons

- Continue

SCREEN 4 — How Does It Feel?

Header

How does your story feel?

Multi-select chips

Humorous

Tragic

Exciting

Gothic

Romantic

Hopeful

Dark

Whimsical

- Add your own

Buttons

- Build my story

SCREEN 5 — Build My Story (Timeline)

Header

Name your story

(text field, auto-filled with an AI-suggested title)

Subtext

Here's your 12-beat timeline. Edit anything. We'll come back to anything you clear.

Timeline UI

12 vertically stacked beat cards.

Each beat contains:

- Beat label (Beat 1, Beat 2...)
- Title (editable)
- Summary (editable)

Per-beat controls

- Edit
- Regenerate
- Clear
 - Clears content but keeps the beat slot
 - Tooltip: "We'll come back to that."
- Lock icon
 - Locked beats cannot be changed by:

- Regenerate
- Refine
- Transform
- Only manual edits affect locked beats

Top actions

- Surprise me
- Regenerate all

Buttons

- Approve timeline

Approve confirmation

“Approve this timeline as your first draft?”

Buttons

- Approve
- Keep editing

On Approve

- Saves to Library as First Draft Timeline
- Status: Approved

SCREEN 6 — Expand Your Story

Header

Let's expand your story

Subtext

Answer a few questions so we can add depth to your timeline.

Stepper Sections

Protagonist

- Who is your protagonist?
- What do they want?
- What do they need but don't realize yet?

World

- Where and when does it take place?
- What's one important rule of this world?

Antagonist

- Who or what opposes them?
- What does the antagonist want?

Secondary Characters

- Name one ally
- Name one complication (rival, skeptic, betrayer, etc.)

Story Impact

- What's the big turning point?
- How should the ending feel? (Win, loss, bittersweet, twist)

Buttons

- Continue
- Skip question

SCREEN 7 — Updated Timeline

Header

Here's your updated timeline

Subtext

We used your answers to deepen the story. Review and approve.

Same 12-beat editor as Screen 5

(Clear, Regenerate, Lock still apply)

Buttons

- Approve final timeline
- Keep expanding

On Approve

- Saves as Final Timeline
- Added to Library
- Does not overwrite First Draft

SCREEN 8 — What Do You Want To Do Next?

Header

What would you like to do?

Subtext

Working from: Final Timeline

Buttons

- Refine
- Pitch

- Transform

8A — Refine

Header

Refine your story

Options

- Tighten plot
- Add twists
- Alternate ending
- Increase stakes
- Improve antagonist
- Tone shift

Button

- Create refined version

System

- Generates a new timeline
- Saved as a new version in Library
- Original remains unchanged

8B — Pitch

Header

Create a pitch

Select what to generate:

- Logline
- Short synopsis
- One-page synopsis
- Numbered outline

Button

- Generate pitch

System

- Generates selected items
- Saves as a Pitch Package tied to the current timeline version

8C — Transform

Header

Transform your story

Subtext

This creates a new version. Your original stays intact.

Choose new format:

- Play
- Film
- Book
- Television
- Comic / Manga
- Short
- Vertical

Toggles (default ON):

- Keep characters and names
- Keep plot beats
- Keep tone and genre

Button

- Transform

System

- Creates a new timeline version in the new format

- Routes immediately into Expand Your Story (Screen 6)
-

Library (always available)

Shows:

- Stories
- Each story's timeline versions
- Pitch packages

User can:

- Open any version
- Rename versions
- Delete drafts
- See what format each version is in
