

## 1. Go to OpenAI Platform

- Visit <https://platform.openai.com>
- Log in with the account that has the API key

## 2. Navigate to Billing

- Click on **"Settings"** (gear icon in top-right corner)
- OR go directly to <https://platform.openai.com/settings/organization/billing/overview>
- Click **"Billing"** in the left sidebar

## 3. Add Payment Method

- Click **"Add payment method"** or **"Payment methods"**
- Click **"Add payment method"** button
- Enter credit/debit card information:
  - Card number
  - Expiration date
  - CVC/CVV
  - Billing address
- Click **"Add card"**

## 4. Add Credits (Choose One)

### Option A: Auto-Recharge (Recommended)

- In the Billing section, find **"Auto-recharge"**
- Toggle it **ON**
- Set:
  - **Recharge amount:** \$10-\$50 (your choice)
  - **Recharge threshold:** \$5 (triggers when balance drops below this)
- Click **"Enable auto-recharge"**

### Option B: Manual Purchase

- Click **"Add to credit balance"** or **"Buy credits"**
- Enter amount: **Minimum \$5** (recommended \$10-\$20 for testing)
- Click **"Continue"**
- Review and click **"Confirm payment"**

## 5. Wait for Processing

- Payment usually processes in **1-5 minutes**
- Refresh the page to see updated credit balance

## 6. Verify Credits Loaded

- Check the **"Credit balance"** section
- Should show your added amount (e.g., "\$10.00")
- If it shows \$0.00, wait a few more minutes and refresh

## 7. Check Usage Limits

- Go to <https://platform.openai.com/settings/organization/limits>
- Verify you have access to **GPT-4** models
- If "GPT-4" shows limits, you're good to go

## 8. Test the API Key

- Go back to StoryBeats
- Hit the **Reset** button
- Enter the API key again
- Click "**Save and Continue**"
- The validation should now pass
-
